| 2. Description of Changes/News |
|---|
| <p>The HARTING ix Industrial portfolio currently includes two similar variants of Cat.6A PVC cable assemblies with the ix Industrial Type A solder connector. Compared to the initial variant, the second variant offers an improved production process and optimized performance due to the use of a higher quality cable. Since the new variant offers only advantages compared to the 094826 series, we have decided to phase out the above-mentioned items at the end of the year 2022.</p> <p>From now on, please order already the new variant, if possible. Therefore, please see the cross-reference list on the following page to find the correct replacements.</p> |
