

Product Change Notification

TE Connectivity

Product Change Notification: P-16-013055

PCN Date: 24-MAY-16

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Obsolescence of ZH2/ZH4 Product Families and Replacement Offering of SWFR X2/X4

Description of Changes

This notification is to inform you that due to obsolescence of a key raw material used in manufacturing of ZH2 and ZH4 product families, we will be discontinuing production of ZH2 and ZH4 tubing families. To support our customers, we have developed new tubing families SWFR X2 and X4 that are ZEROHAL tubing, meet UL224 125 Deg C rating and meet VW-1 flammability performance. The tubing is recognized by UL under E35586 file. There is no change in form, fit and function of X2/X4 tubing compared to ZH2/ZH4 tubing. The new tubing will be available for ordering by June 30, 2016. Due to limited availability of the obsolete raw material, we expect to supply ZH2/ZH4 tubing for next 90 days from the date of this PCN only. Please contact your TE local sales for further details. Please see Appendix A in the attached PCN bulletin for a list of affected parts. The SWFR specifications are provided in X2 and X4 drawings. New Part numbers will be used for these product families.
