

Technical Bulletin

TB_G84-44xx_Controller_12142011

The Samsung controller used in the PS/2 versions of the G84-4400 and G84-4420 keyboard series has been called off. The controller is being replaced with a Holtek controller.

The following keyboard part numbers are affected by this change:

xx = Language variant

G844400LPBxx-0
G844400LPBxx-2
G844400PRBxx
G844420LPBxx-0
G844420LPBxx-2
G844429LPBEU-2

There is no impact to form, fit, function, quality, reliability, and lead time.

Based on current demand estimates we will change to the new Holtek controller around the end of April 2012.

For an interim period we cannot rule out that old as well as new products may be shipped.

If you have a critical customer that uses these products and will require a sample for certification testing please let CID Technical Services know immediately.

Please contact Technical Services with any questions.

Kind regards,

Ed Ferraton
