

Low-Profile VGA Coaxial High-Resolution Monitor Cable with RGB Coaxial (HD15 M/M), 2048 x 1536 (1080p), 50 ft.

MODEL NUMBER: P502-050-SM

Allows a high-resolution connection between your VGA-enabled computer and monitor up to 50 ft. apart with no ghosting.

Description

The P502-050-SM VGA Coaxial High-Resolution Monitor Cable (M/M) allows you to connect your VGA-enabled computer and monitor up to 50 feet apart. Constructed from mini-coaxial (RGB) and paired video wire, it supports video resolutions up to 2048 x 1536, including 1080p, with no ghosting. It's more than 40% smaller in diameter than standard VGA cables, which increases airflow in tight spaces and makes it easier to install around corners.

Foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI line noise that can distort or destroy data. Molded HD15 male connectors with gold-plated contacts provide maximum conductivity and minimize data loss. Integral strain relief gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.
