

PRODUCT CHANGE NOTIFICATION

#PCN-DC-ODDV-15

Business Unit	Product Line Code	Type of Change	Action	Date of issue
DC	ABQ	Mechanical	Notify Distributors and Field	6/24/16

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description of Change:

An additional groove has been added to the contact carrier of the female M12 for installation of an optional O-ring. This new O-ring is intended to increase the optimal tightness for sealing of the connector when in the unmated state. The chamfer of the housing nut will be increased to accommodate the new O-ring. The coding groove will be slightly shortened for a better positioning of the O-ring. Other changes include adjustment of the contact carrier's diameter to 8.2mm and removal of the inscription of the number of poles on the mating side.

Warranty Information:

N/A

Stock Status

Can existing stock still be used? Y

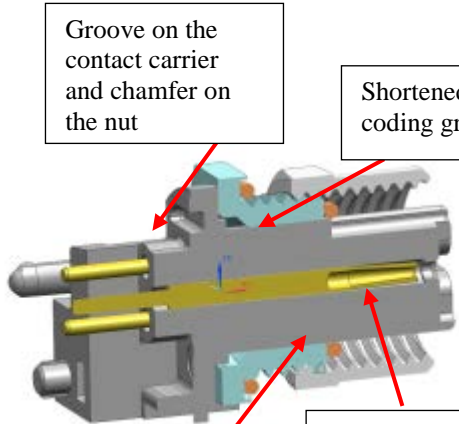

Is mixture of stock acceptable? N

Transaction Dates:

Date modification goes into effect from Germany: Q4/2015

Expected first shipment (from Phoenix Contact) of the modified product(s): Q2 2016
