FDC - Field Device Connectors	ABN	Product Change Notification	Notify Distributors and Field	4/3/2023

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

The Phoenix Contact logo and lettering on the housing component of the V14 connectors are embossed in the relief. This change provides a consistent design across the V14 push-pull ADVANCE products. In addition, we are able to improve the quality of the components.

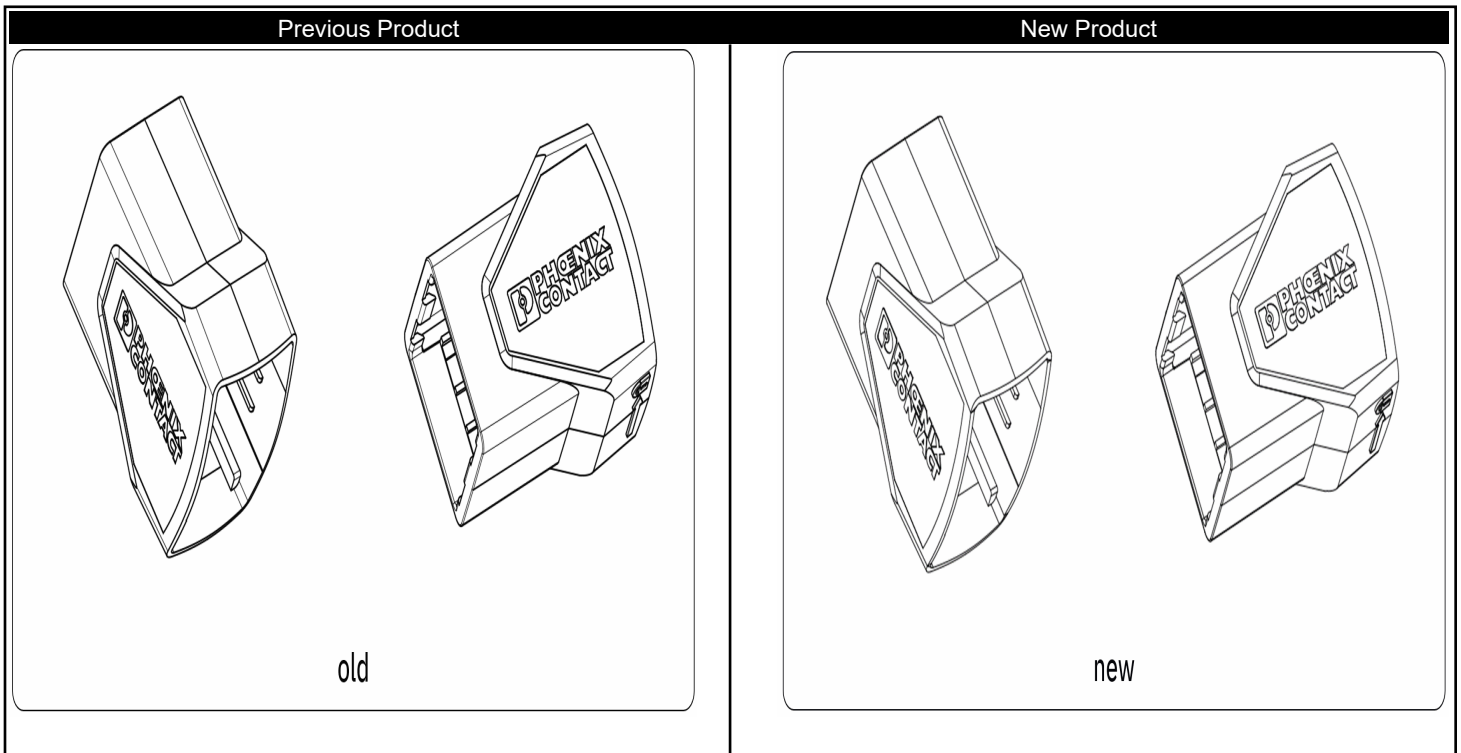

The minimal, but necessary change in width from 22.4mm to 22.5mm allows better material distribution during the production process. All normative dimensional specifications are still met.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	Yes

Transaction Dates

Date modification goes into effect from Germany:	9/1/2023
Expected first shipment (from Phoenix Contact) of the modified products(s):	9/1/2023
