3.5mm Mono Audio Plug to Alligator Clips

PRODUCT ID: 4181

This cable is easy to understand – you get a 3.5mm mono audio plug on one end, and two alligator clips on the other. It's also really easy to use, perfect for clipping onto a micro:bit or Circuit Playground! It's also good for use with AT (accessibility technology) buttons as they use 3.5mm mono cables for interconnection.

Black wire connects to sleeve, white wire connects to tip.
