

## Product Change Notice

**Notice: #111715 Spec Change Announcement**

**Date: Nov 17, 2015**

### To Our Valued Customer:

We appreciate your use of VI Chip products. Our commitment to customer satisfaction is demonstrated by our notification to you of the following change.

### Description:

Efficiency specifications changes been made to enhance yield. These changes do not impact realistic PRM operating conditions. The 25C specification changes are not expected to impact any existing designs or design practices related to the PRM. Datasheet specifications at 100C reflect minimum and typical efficiency performance.

### Product Affected:

Product Part Number	Specification	Changes		
		Old Value	New Value	Reason
PRM48AH480T200A00	Efficiency 25C Nom Line Full Load	95.7% Min	95.25 Min	Yield
	Efficiency 25C Nom Line 50% Load	94.8% Min, 96.0% Typ	94.0% Min, 95.0% Typ	Yield
	Efficiency 25C Low Line to High Line at Full Load	94.8% Min	93.25% Min	Yield
	Efficiency 100C Low Line to High Line at Full Load	95.0% Min	93.5%Min	Yield

### Effective Date code:

All products manufactured on or after August 3 – 8, 2015. Date Code = DC1532.

### Actions Required:

Customers should review data sheets of suggested product for suitability as replacements in each application, and contact a Vicor applications engineer with any technical questions.
