End-of-Life Notification
January 24, 2014
PCN1029

Dear Valued Customer:

As part of our on-going product lifecycle management process, we have transitioned the following products to an "End-of-Life" status. This decision was based on our review of historical unit shipment volume and product revenue performance. Products targeted for end-of-life will be available for a last time buy purchase prior to being made obsolete. The products identified for inclusion into our Last Time Buy Program are the following Dual Single-Pole, Normally Open OptoMOS® Relays:

- XBA170
- XBA170P
- XBA170PTR
- XBA170S
- XBA170STR

IXYS Integrated Circuits Division recommends using our LBA110 as a drop-in replacement for these devices.

Orders will be accepted on material that is built and in stock commencing with the date of this notice. Scheduled deliveries will be permitted within 3 months of the last time buy date. XBA170 products will not be offered after April 24, 2014. Thereafter, these products will be considered obsolete.

Acceptance of last time buy orders is subject to product availability and at the discretion of IXYS Integrated Circuits Division. Every effort will be made to fulfill these orders. Purchase orders for these products will be considered non-cancelable, non-returnable (NCNR). If you have any questions concerning this End-of-Life notification, please contact your IXYS Integrated Circuits Division representative.

Regards,
Steve Andrezyk
Director of Marketing
