1 Affected Products

Product Name	Old Ordering Code	Old Type Number	New Ordering Code	Product Status
SARA-N211	SARA-N211-02B	SARA-N211-02B-00	SARA-N211-02X	Engineering Samples

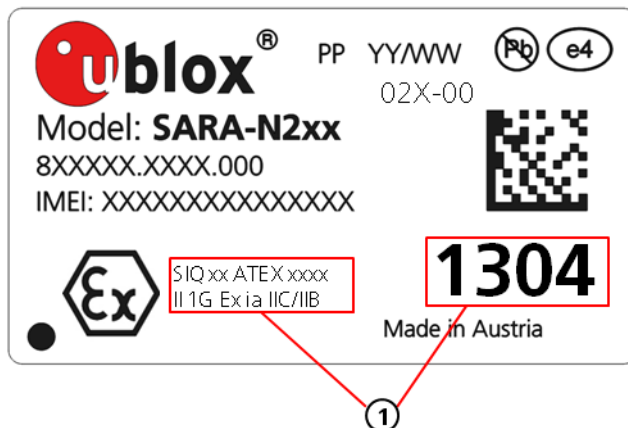

2 Type of Change

- Hardware modification
- Firmware update
- Documentation update
- New ordering code and label

3 Description of Change

In order to fully comply with the ATEX certification requirements, the following changes will be implemented on SARA-N211 modules:

- The product ordering code will change from SARA-N211-02**B** to SARA-N211-02**X**
- The product label will be modified to show the new ordering code and proper ATEX marking (see below)

①: The Notified Body and the ATEX certificate numbers will be added to the label once the module reaches the Initial Production status.

The changes **only apply** to SARA-N211 modules.

4 Schedule

This information becomes effective as of 29th November 2017.

5 Customer Impact and Recommended Action

Customers need to update their purchasing system to the new ordering code of SARA-N211 modules. u-blox will directly contact customers that have open orders for the old ordering code.
