

3M™ Powered and Supplied Air, Phase-In/Phase-Out Notification

3M™ Powered and Supplied Air, Phase in/Phase Out Notification

January 2020,

Dear Valued Customer:

To help improve communication and visibility, 3M™ Powered and Supplied Air phase-in/phase out communications will compile recent past, present, and expected future portfolio changes into a single, global communication. Certain parts and part numbers will not be recognizable to some regions and countries where they are not sold. Please read this notification in its entirety to know how this may or may not impact you.

As you are aware, the 3M™ Versaflo™ Powered and Supplied Air portfolio has become the most versatile, comfortable, and cross approved powered and supplied air portfolio 3M offers. As we continue to enhance and expand the Versaflo offering, the demand on certain less versatile powered and supplied air products is declining. This document is meant to communicate the intended phase out dates, and recommended replacement products.

Table 1 provides new phase out notifications or changes to previously announced notifications by product series. You can find recommended product replacements by SKU and previously announced phase out notifications in tables at the end of this document.

Table 1

Product Series	What is being phased out	Intended replacement	Date of intended last sale
Airmate & Dustmaster	All PAPRs, kits, & accessories	Versaflo PAPR systems	PAPRs/Kits Aug 2019 Filters/Accessories: Various dates
Airstream	All	Currently there are no replacement 3M PAPRs that meet applicable U.S. Mine Safety and Health Administration (MSHA) standards.	June 2020
Breathe Easy	Certain filters & accessories	Versaflo PAPR systems, or similar accessories currently offered for Breathe Easy	December 2019
GVP	All	Versaflo PAPR systems, or similar filters already offered for GVP	June 2021
H-Series	Certain accessories	Similar accessories already offered for H Series	Accessories- Dec 2019
HT- Series	Certain accessories	M-Series helmets, or similar accessories within HT-series	December 2019
M-100 Series Helmet	M-100 Series Helmet and accessories	M-200 Series Helmet and Accessories	August 2019
Powerflow	Certain individual replacement parts	Kitted replacement parts for 6800	Aug 2019
Supplied Air	Certain parts, filters and accessories	Kitted replacement parts, similar accessories	July 2019

3M™ Powered and Supplied Air, Phase-In/Phase-Out Notification

3M intends to provide products in the phase out stage through the date of intended last sale, however, large variations in demand may cause specific products to be phased out earlier than planned. 3M recommends placing orders for products being phased out as soon as you are able.

Please refer to the Regulatory Approval Labels (e.g., in the US, the NIOSH Approval Label) for your intended respiratory assembly to ensure you have all required system components.

Should you have any questions, please contact your local Sales Representative or 3M Personal Safety Division Technical Service at 1-800-243-4630. In Canada, please contact Technical Service at 1-800-267-4414.

Relevant Stock Number information is provided on the following pages.

Sincerely,

A handwritten signature in black ink, appearing to read "Levi Kent", followed by a long horizontal line extending to the right.

Levi Kent – US Marketing Manager, Powered and Supplied Air Respirators

3M Personal Safety Division

3M™ Powered and Supplied Air, Phase-In/Phase-Out Notification

Airmate & Dustmaster Phase Out

The recommended replacement option for your consideration for Airmate or Dustmaster PAPR systems is a Versaflo™ PAPR system. Versaflo™ PAPRs can be purchased as ready to use kits (which include headtops), assemblies (which exclude headtops) or a la carte. The most similar Versaflo PAPR systems to Airmate and Dustmaster would likely be the TR-300+ series or the TR-600 series PAPRs.

Breathe Easy PAPR systems phase out of certain filters, accessories, and replacement parts
 The recommended replacement option for your consideration for discontinued Breathe Easy skus is a Versaflo™ PAPR system. Versaflo™ PAPRs can be purchased as ready to use kits (which include headtops), assemblies (which exclude headtops) or a la carte. The most relevant Versaflo PAPR systems to Breathe Easy would likely be the TR-300+ series, the TR-600 series, or the TR-800 series PAPRs.
