

## BARRIER STRIP

### DUAL BARRIER TERMINAL BLOCKS

#### KEY FEATURES

- Accepts wire range from 10-30 AWG dependant on style
- Full line of accessories includes jumpers, quick connect tabs, and some covers
- Wire screw clamps are best suited for bare wire applications
- Common contact styles offered in both dual and tri-barriers
- HVAC controls

TE Connectivity's (TE) Raychem Barrier strip style terminal blocks are available in 3 main categories: dual-barrier, tri-barrier, and double row. Each category of barrier strip is offered in several industry standard center line spacings, allowing you to choose from high density to high current applications.

Dual-barriers and Tri-Barriers are very similar in that they are both offered with hardware which allows them to be used in either PCB or panel mount applications.

The Dual-Barrier design provides a more cost effective solution than the Tri-Barrier Strips while still supplying many of the design advantages.

**Customers can count on consistent, high quality products, driven by TE's proven innovation and backed by our extraordinary customer support.**
