

3M™ Hook and Loop Pad Holder 250, 4 in x 9-1/4 in, 5 per case

Part Number 250, 3M ID 61500049137, UPC 00048011129297

Specifications

Applications	Grinding
Attachment Type	Hook and Loop
Brand	3M™
Color	Light Gray
Converted Form	Backup Pads, Non-Disc
Equipment - Machines	Hand Sanding
Form Type	Right Angle
Front Color	Gray
Hook Type	7
Industries	Aerospace, AOEM, Composite, Cutting Tool Manufacturing, General Industrial, Metalworking, MRO, Paint Preparation, Primary Metal, Transportation & Heavy Equipment, Woodworking
Length	9.25 Inch
Length (Metric)	234.95 mm
National Stock Number	7920015194142
Product Form	Holder
Sub Industries	Builders Hardware, Cabinetry, Custom Woodworking and Millwork, Furniture, Medical Instruments, Metal Fabrication, Metal Implants, Plating & Polishing,

Plumbing Fixtures, Primary Wood and Panel Processing, Turbine Engines

Type Regular

Width 4 Inch

Width (Metric) 101.6 mm

Product Details

- Hook and loop attachment system offers quick change of abrasive pads for multi-step processing
- Hard plastic provides firm support evenly across the pad
- Swivel attachment accepts most threaded broom handles
- Use with Scotch-Brite™ sheets (sold separately)

3M™ Hook-and-Loop Pad Holders allow you to quickly and easily change Scotch-Brite™ abrasive pads during multi-step projects. Holder has a swivel attachment which accepts a threaded broom handle, and the tough plastic backing distributes pressure evenly over pad surface for efficient cleaning action and improved pad life.

Easy Hook-and-Loop Attachment

Our hook-and-loop feature makes pad attachment, removal, and re-attachment easy and facilitates use and re-use of the pad for the extent of the abrasive life. Our holders have T-shaped hooks of the type most commonly used in hook-and-loop applications. These holders grip the backings of hook-and-loop pads and provide a finer finish than do adhesive backed options.

Use Scotch-Brite™ Materials

Scotch-Brite™ surface conditioning discs and light grinding/blending products (sold separately) deburr, clean, blend, and finish a wide variety of materials. Using surface conditioning products with a 3M disc pad holder generates finishes suitable for paint.
