Subject: Change in Life Cycle Status to Obsolete for Select Power Supply

Dear Channel Partner:

SL Power regularly reviews product lifecycle status on its products to mitigate risks including but not limited to component availability and regulatory changes.

Based on the most recent lifecycle review, the products identified in the attached appendix will be moving from an End of Life (EOL) status to Obsolete (OBS) status effective immediately.

SL Power's intent is to provide customers access to the latest power supply technologies and products that offer superior performance and value. In turn, SL Power will strive to provide affected customers sufficient notice, and a Last Time Buy (LTB) period as future lifecycle status reviews drive a change in product lifecycle status.

Please be assured that SL Power is committed to doing everything possible to minimize impact to you and your customers. We thank you for your continued support and look forward to continuing our support to your organization.

Sincerely,

Shri Chandrasekharan

Shrinidhi Chandrasekharan
Director, Global Product Management & Marketing
SL Power Electronics Corporation
