## 2 Migration Details

This product migration is required due to the impending obsolescence of the Micron NOR Flash (part number PC28F640P30BF65A) used on these products. The replacement product models will convert the design to a new Micron NOR Flash part (MT28EW128ABA1LPC-0SIT) resulting in a printed circuit board change and software impact.

Technical details of the changes made between the OMAP35xx-11 and OMAP35xx-12 products are described within PCN 622 of the OMAP35x SOM-LV Product Change Notification document.
