This document certifies that all materials manufactured for this order conform to the manufacturing and/or final product specifications as required by print or purchase order. Test reports covering materials and procedures used in the manufacturing of Laird Technologies products are on file and subject to examination. This Certificate of Conformance is meant to be support documentation for our Customer's Quality Assurance department.

Laird and its subsidiaries are committed to ethical practices and compliance with all applicable laws and regulations. While we do not source these metals directly, they may exist in the materials and components we source. We are therefore committed to working with our customers and suppliers to responsibly source the materials and components we use in manufacturing our customers' products which may contain these minerals.
