

# Pruner Rope Insulator

## Extra Protection When Pruning in Energized Spaces

Pruner Rope Insulators are individually tested for dielectric strength at 100kV per foot for 5 minutes per ASTM F711 as referenced in OSHA paragraph 1910.269(j)(1)(i)

Splice into pruner rope according to your company procedures. Reference ANSI Z133 for guidelines on using equipment near energized conductors.

JA-14 Pruner with Pole Adapter, Rope and Rope Insulator

Part Number	Description	Voltage Rating
PRI-7.5	Pruner Rope Insulator, 7.5" Length	62.5 kV
PRI-12	Pruner Rope Insulator, 12" Length	100 kV
