Subject: Material changes (laminated steel) for Hartland Control HCT Transformers made in the Littelfuse plant in Matamoros, Mexico

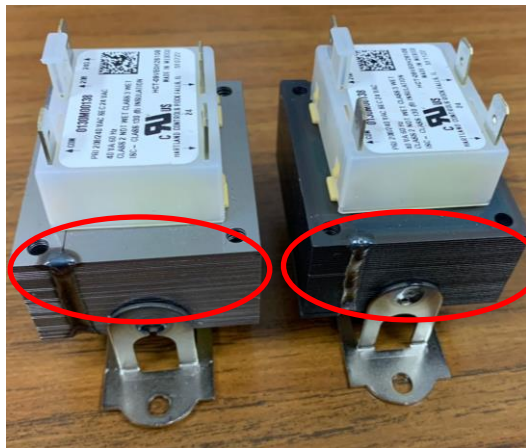

Document: LFPCN_IC03182022

Date Released: March 21, 2022

Dear Valued Customer,

This letter is to inform you of a material change to Hartland Controls transformer line made in Littelfuse plant in Matamoros, Mexico. Effective immediately, products listed below will have a different appearance in middle section steel core, as shown in the photos below. This change is due to receiving laminated steel from different suppliers. Littelfuse has been qualifying multiple sources and grades of electrical steel to ensure continuity of supply in the current challenging global steel market. There is no change to the product operation, specifications, performance, or certification.

The following products are affected: HCT series transformers (Part number: HCTxxxxxxxxxxxxx)

New appearance Current appearance

Please call or email your sales or customer service representative if you have any questions.

Sincerely,

John Zheng
