### **Tool revision heavy|mate DD series**

Dear Sir or Madam,

We continually strive to improve our high level of technical development. Therefore we are taking constantly direct measures to optimize our product range.

Due to a tool revision, some of our inserts of the heavy|mate DD-series will have small optical modifications, without any changes on their technical function or specification.

The Inserts also fulfill the requirements of EN45545 HL3.

Please see the pictures below which show the optical modifications.

The actual housings will be replaced by the new ones after using up existing stock.

Kind regards,

### **Amphenol-Tuchel Electronics GmbH**
