Christian Olivares, Global Product Manager, Industrial Wireless

Re: Discontinuation Notice – Occupancy and Sanitation Solution Kits

Banner Engineering is issuing notification regarding the immediate inactivation of all industrial wireless Occupancy and Sanitation Solution Kits as well as related Finished Good kit items (see attached table of affected models). This action is driven by continuous evaluation and responses to very dynamic global and business changes that have made the continuation of these select models unnecessary.

Our Industrial Wireless Solution and Expansion Kits remain as released items for monitoring various asset parameters such as: Vibration, Temperature, Humidity, and Tank Level Monitoring.

Please ensure all your sales teams are aware of this product notice and contact your regional Banner sales team to discuss all your industrial wireless needs.

Thank You!
