

## Reel type integration for Surface Mount Aluminum Electrolytic Capacitors

To whom it may concern,

We would like to express our sincere gratitude for your continued support.

We would like to inform you of the integration of the reel type for SMD Type Aluminum Electrolytic Capacitors.

Thank you for your understanding and cooperation in advance.

— Notice —

### 1. Discontinued reel

Products with 『DA』『DB』『RB』 as the 9<sup>th</sup> and 10<sup>th</sup> of our 18 digits part numbering system will be discontinued and integrated into『RA』.

Please refer to the appendix data.

### 2. Background:

In order to prevent foreign matter dispersal in-process and for the purpose of standardization, we will integrate the four types of reels used for packing aluminum electrolytic capacitors into one type. This is a change in packaging material and there will be no change in product characteristics.

### 3. End of Life schedule:

The last order date : October 2022

The last shipping date : March 2023 (The date may change depending on production conditions.)

If you have any questions or inquiries, please ask our sales representatives.

We would like to ask you review the attached Acknowledgement Form and return a signed copy through the normal sales channels by **xxxx xx, 2021**.  
If we do not receive a returned Acknowledgement Form from you before the deadline, we will consider that the acknowledgement was received and approved.

Sincerely yours,
