

MEC Product Change Notification
Re: NC/NO Switch Standard Actuation forces

MEC Customers,

Moving forward, MEC's standard NC/NO switches will be available exclusively with a 3.5 Newton actuation force. Initially these switches were offered in 2.0N, 3.5N, and 6.5N as standard, but based on sales trends and in the interest of quality assurance, exclusively offering the 3.5N NC/NO as standard will help us better serve you.

The available standard part numbers are now:

5ESH935NCNO
5ETH935NCNO
5GSH935NCNO
5GTH935NCNO

If you have any questions or concerns, please contact the MEC North American Product Manager, David Allen.

5ETH935NCNO

5GSH935NCNO

A handwritten signature in black ink that reads "David Allen".
