- Attachment:**  
 Yes       No

### Description and purpose of change:

In order to enhance the product reliability, Würth Electronics Midcom will change the magnetic core material. The material change will have a higher permeability and more stable inductance.

There will be no change in form, or fit of the product.

### Detail of Change:

Core material will be changed from: P4  
to: P47

### Reliability / Qualification Summary:

Process / Product approval is according to internal requirements released by the Total Quality Department and the Product Management Department.
