Business Unit	Product Line Code	Type of Change	Action	Date of Issue
IF - Interface Components	CK7	Product Discontinuation	Notify Distributors and Field	11/27/2019

Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review and acknowledge this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.

Description for Product Discontinuation

Phoenix Contact has discontinued select single phase solid state contactors. The affected part numbers are being discontinued because certain components used in the manufacture of these articles are no longer available from our suppliers.

The articles being discontinued have been replaced by a next generation product that features similar technical ratings; small differences do exist between the ratings of each product, as well as small changes in the overall dimensions of the housings. Wiring terminal layout is also affected by this change, with the new modules featuring a more straightforward arrangement of the coil connections. The new modules are otherwise functionally equivalent and can be used in place of first generation modules.

If you have any further questions regarding technical differences and/or product selection, please contact our Technical Services Team at 1-800-322-3225 for assistance.

NOTE:

Due to an oversight, this PDN has been issued after the last-order date for this product range. This impacts the purchasing cycle in the following ways:

- 1) In-stock, obsolete parts may be purchased until factory stock in Harrisburg, PA is depleted.
- 2) Once stock is depleted, no additional product can be ordered or shipped.
- 3) At that point, it will become necessary to utilize the new articles, enclosed.

As always, we strive to provide you with the most accurate and timely information we can, but occasionally we fail to do so. We apologize for this late notification and any inconvenience or issues this may have caused. Please accept this PDN as the official notice of article obsolescence.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	No
