

Product/Process Change Notifications

PCN - 14 075

Release Date: September 15 2014

Product Name:	L04 Smart Card		
	L04 Smart Card		
Product Manager:	Otto Yang		
Subject:	Notification of Change with Immediate Effectivity		
Distribution:	Global		
Type of Change:	Process Change		
Change Description:	Provide additional plating option. FCI is now introducing Pd-Ni alloy with gold flash(GXT) as an additional plating material for Smart Card L04 series.		
Reason for Change:	FCI had developed GXT plating in the 1980's and have used this sucessfully on numerous connector families since then. Consequent to this change, FCI will have the flexibility to offer both types of plating against the same specification. This will have no impact on the performance of the connector and there would be no change in the FCI part numbers.		
Affected Parts:	See attached part list.		
Effective Date of Change:	December 15, 2014		<i>Special Note: For EOL PCN's, if no last time buy orders are received within 180 days after issue date, FCI reserves the right to terminate production at any time at its discretion. MOQ and lead time will be negotiated at time of order placement and will be dependent upon material availability. FCI will make every effort to meet customer order requests. Orders placed within the 180-day window, and susequently cancelled, will be subject to cancellation charges.</i>
Last Time Buy Date:	NA		
Last Disty Return Date:	NA		
Last Time Shipment Date	NA		
Datasheet Attached?	NA		
Qual/Test Data Attached?	NA		
Samples Availability Date:	August	30	2014
Available Alternatives?	N/A
