Product Change Notice

Change of Packaging:

Remove the inner box to make it easier to unpack.

Before:

After:

Background:

For the existing packing, the tape-reels are packed into the inner box before putting it into the outer carton, the customer need to open the inner packing to pick up the connectors, which is a waste of time, in order to make it easier to unpack for customer, Amphenol is intended to remove the inner box and put the tape-reels into the stronger outer carton directly, Secure all sides with cardboard , This change will not affect the function of the product.
