Introduction of Silver sinter die attach technology in OMP1

Information Notification

The soft solder die bond process is replaced by a lead free Silver sinter die bond process. For details see the presentation available in the ePCN tool. Phase 1 include non-High Aspect Ratio die sizes.

Why do we implement this change?

The Silver sinter die attach process is introduced to make products in OMP1 packages RoHS compliant, standardize the assembly process with other OMP platforms, improve void control and lower and tighten the Rth distribution.

Identification of affected Products

Top side marking

RHF code on product marking and packing labels will change from H (exempted lead and Halogen free) to D (Lead free and Halogen free)

Product availability

Sample information

Samples are available upon request

Production

Planned first shipment

01/06/2023

Impact

Data Sheet Revision

No impact to existing datasheet

Disposition of Old Products

Existing inventory will be shipped until depleted.

Timing and Logistics

Your acknowledgement of this change, conform JEDEC JESD46 D, is expected till 2023-02-23.

Additional information

Affected products, sales history information as well as self qualification / additional documents can be accessed here: [view online](#)

Remarks

Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact [Ampleon "Quality Support Team"](#).
