Re: Obsolescence of DT27-P, DT36-P, DT45, DT60-P, DT70-P, DT100-P and DT150-P

Dear Valued Customer / Partner,

TDK-Lambda has received EOL notices for the key components used in our older DT AC-DC adapters. Without suitable alternative components, we are offering a last time buy for these products. In addition, the US DoE (Department of Energy) released the Level VI energy efficiency standard which has restricted their use in some applications.

Over the last four years, TDK-Lambda has launched many replacement products that meet both the DoE Level VI and the EU tier 2 Efficiency requirements. These products have the same connectors as the previous generation products and most are direct replacements.

TDK-Lambda recognizes that as a past or current customer of these products, you may require additional units until substitution testing is complete or for service spares. We are offering a last time buy and ship opportunity (please see pages 2, 3 and 4 for the dates). Please understand that these orders would be non-cancelable and non-returnable. We will consider a longer extension on a case by case basis, which may be subject to MOQs and price adjustments.

Please contact our technical support for additional information. 1-800-526-2324 or email [lambda.techsupport@us.tdk-lambda.com](mailto:lambda.techsupport@us.tdk-lambda.com)

A handwritten signature in black ink, appearing to read 'Tom Tillman', enclosed within a hand-drawn oval.

Tom Tillman  
Director of Marketing
