| Product(s) identification: | AD-714 SLIX Dry and Wet Inlays | | | | | | | | | | | | | | | | | | | | | | | | | |
| Type of change: | Product End of Life | | | | | | | | | | | | | | | | | | | | | | | | | |
| Reason for Notification: | This document is a formal notification that Avery Dennison is initiating the End of Life (EOL) process for all AD-714 SLIX dry inlays and labels. | | | | | | | | | | | | | | | | | | | | | | | | | |
| Why this change is happening: | <p>Due to Avery Dennison Corporation's recent acquisition of Smartrac's Transponder (RFID Inlay) Division, a strategic business decision was made to harmonize our respective HF and NFC inlay product lines into a single, more robust inlay portfolio. As a result, AD-714 SLIX inlays and labels will be immediately discontinued and replaced with RACETRACK SLIX, a legacy Smartrac design offering comparable size and performance to AD-714 SLIX.</p> <p>RACETRACK inlays and tags featuring NXP ICODE SLIX are designed for a variety of applications like library and media management. RACETRACK products offer excellent performance in all printed media products and applications including self-check and stack-reading capability and EAS.</p> | | | | | | | | | | | | | | | | | | | | | | | | | |
| Last Time Buy Date: | AD-714 SLIX dry and wet inlays have been immediately discontinued and a limited supply of <i>wet inlay</i> inventory is available for purchase. No future production of these products is planned. Sales orders will only be accepted until the on-hand inventory of this item has been depleted. | | | | | | | | | | | | | | | | | | | | | | | | | |
