[niki.taylor@molex.com](mailto:niki.taylor@molex.com)

Date October 12, 2011

**Series / Product Family:** 7720 series KK® IDT connectors

**Part Numbers Affected:** See attached file

**Product Description:** KK® IDT assembly 2.54mm pitch

**Product Image:**

**Replacements:** No replacements as Molex will no longer manufacture IDT connectors in this product family

**Last Order Entry Date:** 15-Mar-12

**Obsolescence Effective Date:** 30-Apr-12

*For further information please contact your local sales representative.*

#### **PCN Obsolescence special note:**

Due to tooling failure, the 7720 series is going fully obsolete. Many parts in this series recently went obsolete and customers were told that the rest of the series would remain active. Unfortunately, recent sales in this series cannot justify retooling this family, therefore the remainder of the series will go end of life in the next 6 months, pending the status of the tool. If no last time buy orders are received by Molex within 180 days after issue date of the Obsolescence GCN, Molex reserves the right to terminate production at any time at its own discretion. MOQ and lead time will be negotiated at the time of order placement and will be dependent upon material availability. Molex will make all efforts to meet customer order requirements. Orders placed after Obsolescence Notification and subsequently cancelled will be subject to a cancellation charge.
