

In order to focus on our core product lines of cable management and identification products in data, broadband, industrial, and automotive markets, **HellermannTyton North America will cease supplying broadband enclosures and most fiber/copper connectivity products.**

In addition to developing innovative cable management and identification products in aforementioned markets, HellermannTyton will continue to sell and support the RapidNet Line of pre-terminated copper and fiber assemblies and TSR/P Surface Raceway systems.

Products Categories Affected

Broadband & FTTx Enclosures & Accessories

Workstation Products, including:

- *Modular Keystone Jacks-All Colors; RJ45 & GST Series*
