## Product Change Notification

1. ECR #: 208593  
Notification #: 607

2. Date of Announcement: October 19, 2021

3. Series:  
• ERM6 ASSEMBLY

4. Part #'s Affected  
• ERM6-XX-01.5-X-DV-A-XX-K-TR

5. Description of Change:  
The kapton pick and place pad has increased in diameter.

6. Method of Identifying Change  
Kapton pad diameter changed from .098" to .118".

Old Design (.098" diameter kapton pad) vs. New Design (.118" diameter kapton pad)

7. Reason for Change:  
The change in kapton pad size is being implemented to allow the part to be inspected on our automated vision inspection equipment and will improve quality and manufacturability.

8. Impact of Change on Form, Fit, or Function:  
• Form - Kapton pad size increased

9. Projected Implementation Date: October 19, 2021

## **Disclaimer**

Please review the change notification details listed above for specific information regarding the nature and timing of the change. While Samtec has taken precautions to ensure this change is not detrimental to your application, each application can be unique and therefore customers should consider the effect of the change on their specific application.

Samtec has taken efforts to ensure that all users of this product who have requested change notifications have been informed. However, you should assume that this is the only notification that will be sent and you, as the recipient, must determine how to communicate this information to your organization(s) and customer(s) as appropriate. If you wish to opt out of receiving Samtec Product Change Notification emails, please contact [CustomerECN@samtec.com](mailto:CustomerECN@samtec.com). Due to technical progress, specifications are subject to change without notification and it is recommended to provide an alternative contact when opting out.

Please contact Samtec at [CustomerECN@samtec.com](mailto:CustomerECN@samtec.com) for any questions related to this change.
