

DEUTSCH DMC-MD Shielded Cable Clamp

2 Piece Single Module Backshell Offering Cost-Efficient Strain-Relief

VERSATILE

- Interchangeable 2 piece design
- Simple shield termination

COMPATIBLE

- Mates with all DMC-MD single module connectors
- Attaches to both EN4165 plug and extended receptacle

RUGGED AND RELIABLE

- Design is based on EN4165
- Utilizes high-performance composite materials
- -55°C to +175°C operating temperature

SIMPLE INSTALLATION

- Utilizes 2 self-tapping stainless steel screws

COST EFFECTIVE

- Eliminates multiple piece constructions
- No special tooling required; eliminates cable ties
- Fast mate and de-mate with enhanced grip design

ENHANCED PART IDENTIFICATION

- TE logo and part number molded in

Description

The new TE Connectivity (TE) cost optimized DMC-MD shielded cable clamp is based on the European Standard EN4165. It provides a simple 2-piece split shell design that is compact, simple to use, and easy to install. Because both halves are identical, there are no concerns with mateability. Two new exciting features include the incorporation of 2 stainless steel self-tapping screws, eliminating conventional thread locking screws. Our newly designed back end provides enhanced gripping action to help facilitate the mate and de-mate connector process. This cost optimized backshell is the simplest design ever and can be positioned on both the plug and extender receptacle.

DEUTSCH DMC-MD Shielded Cable Clamp

2 Piece Single Module Backshell Offering Cost-Efficient Strain-Relief

Rugged Reliability

Built to withstand various harsh environmental conditions typically seen in the aerospace industry, the DMC-MD 2 Piece Single Module Cable Clamp is ideal for use where robust wire and cable retention is required. This includes both shielded and non-shielded applications, including potential multiple re-entries.

Versatile, Quick, Easy

The 2 Piece Single Module Cable Clamp provides maximum flexibility during design and installation and is fully compatible with TE's aerospace-qualified DMC-MD connectors. In addition, it is compatible with all other EN4165 compliant connectors currently in the market.

Simple, Efficient, Cost Effective

The simplicity of design and versatility of a common cable clamp makes this a very cost efficient strain-relief solution for DMC-MD plugs and receptacles and with our logo and part number molded in, lead times and costs are further reduced.

Applications

- Lighting
- Seat wiring and actuation
- Cabin wiring
- Passenger service unit
- Onboard entertainment systems

SPECIFICATIONS

- **Materials:** Composite, Nickel-Plated Thermoplastic
- **Temperature:** -55°C to +175°C
- **Weight:** 10 gr max.
- **Torque Screw:** 4.42 in-lbs max.
