

## Metal Case For Raspberry Pi 4 Model B Installation Steps

- 1、 Install the 4 screws shown in picture below onto the 4 holes of Raspberry Pi 4 B.

- 2、 Place Raspberry Pi into the case, make sure the four screws mounted in the previous step align to the 4 holes on the bottom. Use the black screws to fix them together.

3、 Attach the top case, and fix them with black screws, that' s all.
