

Product Change Notice: ERJ-S6 to ERJ-U6 Series Part Number Change

PCN.PG24.05.23.2017

05.23.2017

About This Notice:	Panasonic is changing the part number of this Series to better standardize the Series. This Anti-Sulfur Series has two major technologies for the electrode; a Gold Type and a Silver Palladium Type. For the part number, the Gold Type currently uses an S and the Ag/Pd Type uses a U in the part number. Since this low Ohmic Series uses the Ag/Pd Type, Panasonic has now changed the part number to better represent the materials used.
Effective Date:	Immediately
Change Details:	Panasonic is changing the part number of this Series from an S to a U. To help identify the new parts, Panasonic is changing the color of the marking from Blue to Red. The parts will be functionally identical to the old parts.
Affected Parts:	ERJ-S6S****V changed to ERJ-U6S****V ERJ-S6Q****V changed to ERJ-U6Q****V
Datasheet(s):	Please see attached.
Notes:
