The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

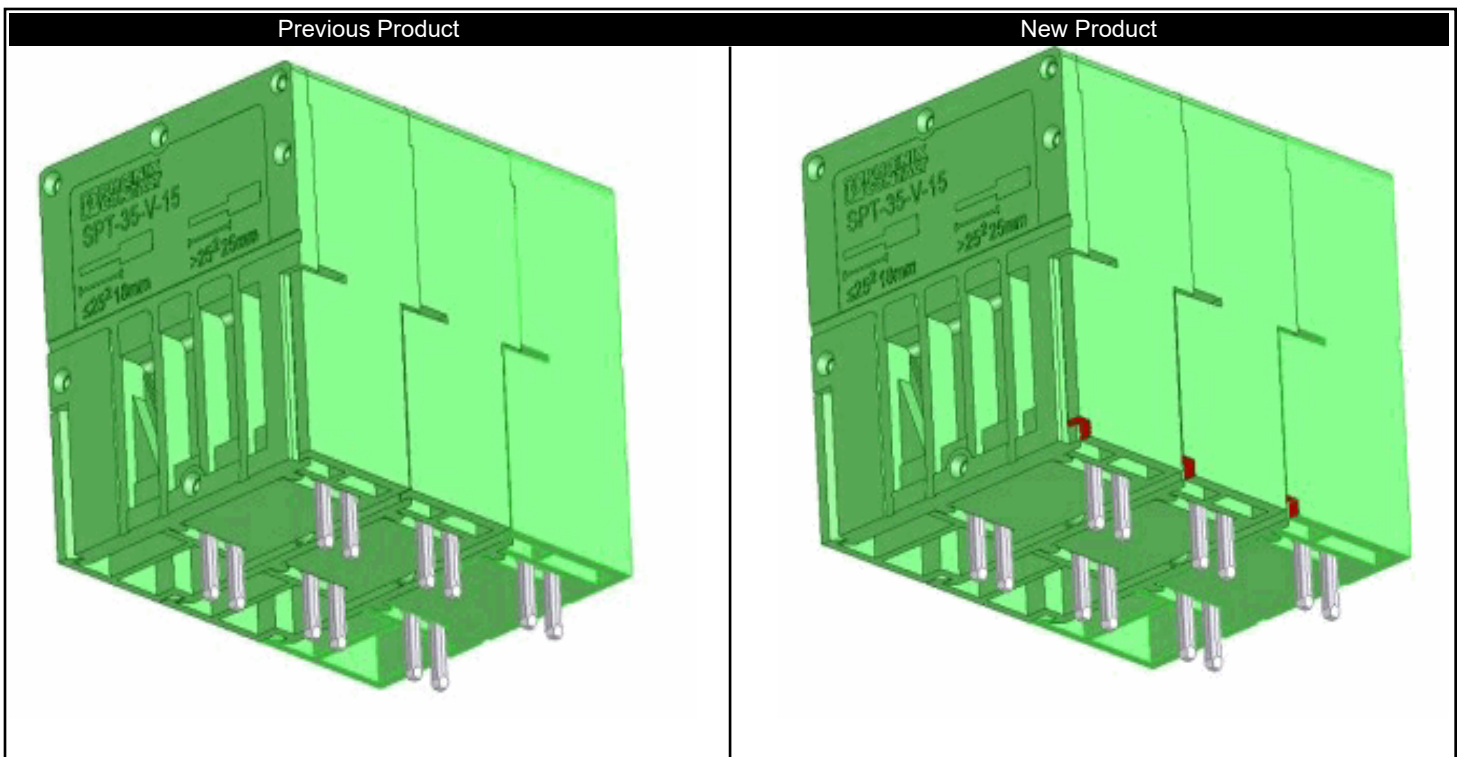

The contour of the SPT 35 terminal blocks is being changed as part of a tool optimization project. A groove of 1.6 x 1.8 mm will be added to the rear side of the terminal block on the lower edge. The overall dimensions of the terminal block remain identical. The PCB layout, the technical performance data, and the terminal block approvals are not affected by this change. The revision level will be changed from 0 to 1. Depending on local inventory both versions may be delivered.

Stock Status

Can existing stock still be used?	Yes
