

Addition of Part of the Assembly Line

Asahi Kasei Microdevices Corporation (AKM) informs that our contract manufacturer plans to add the part of their assembly line in their owned facility.

It is going to be used as the second line for stable production capacity according to the schedule below.

We would appreciate your understanding and cooperation.

For further inquiries, please contact our sales rep or the distributor.

Sincerely,

Items Please refer to the table in the attached.

Reasons In consideration of the stable production capacity, we plan to use a new building for the second assembly line. The production continues together with the current assembly line.

Influence on Quality

There is no influence on the product form, function, quality. Traceability is secured by the marking (date code).
