

NO: LC-071
 DATE: June 2018

PRODUCT: UM/UMQ Safety Mats
 TYPE: Discontinuation Notice

UM/UMQ Series will be discontinued; Replace with UMA Series

Due to the obsolescence of manufacturing equipment the UM/UMQ series of safety mats will no longer be available. The UMA series is the recommended replacement and the dimensions are compatible with existing imperial size mats and offer direct replacement capability; other characteristics of the UMA mat has changed such as the material but, still offers direct replacement compatibility in the majority of installations. Refer to the information below for full details of the differences.

Discontinuation Date: October 31, 2018

Note: Date is subject to change based on raw materials, components availability and state of the manufacturing equipment at the factory.

Cautions on Applying Replacements

- Starting immediately any new request for UM/UMQ mat part numbers will be converted to the new UMA series.
- Existing part numbers for UM/UMQ mats and custom trim kits will continue to be available until October 31, 2018.

- Existing custom trim kits for the UM/UMQ mats will need to be recreated due to changes in cable exit locations, a new custom request will need to be submitted.

Mounting

Recommended replacement Model UMA Series

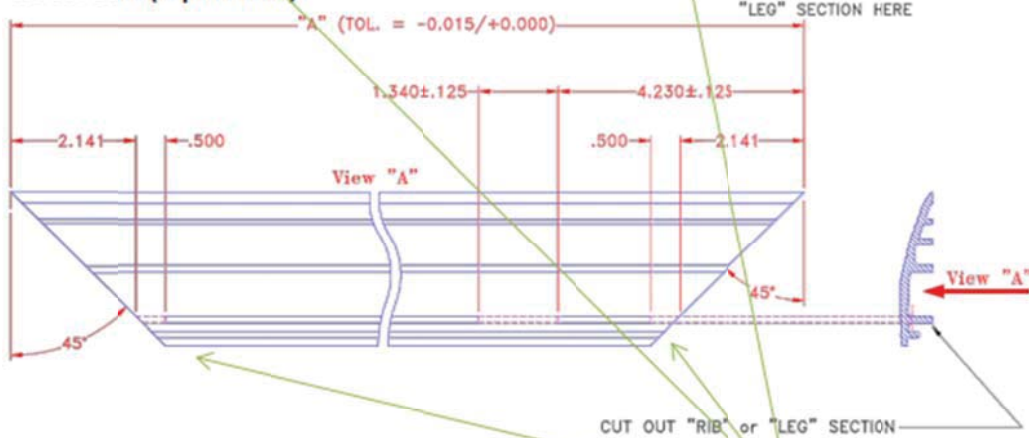

1. New metric trim kits MTKCA and MTKMA are available for the metric UMMA or UMMYA series.
2. UM/UMQ to UMA Trim Conversion

Existing installations using UM or UMQ style of safety mats can be converted for use with UMA 2-wire or 4-wire mats. M8 extension cables will need to be used to extend the M8 corner cable(s) of the mat(s) back to the control panel, if an existing M12 panel mount connector is being used an M8 to M12 adapter (UMA-SA-4PF-M8-4PM-M12) is available for ease of connection.

TKM Profile (2-part trim base)

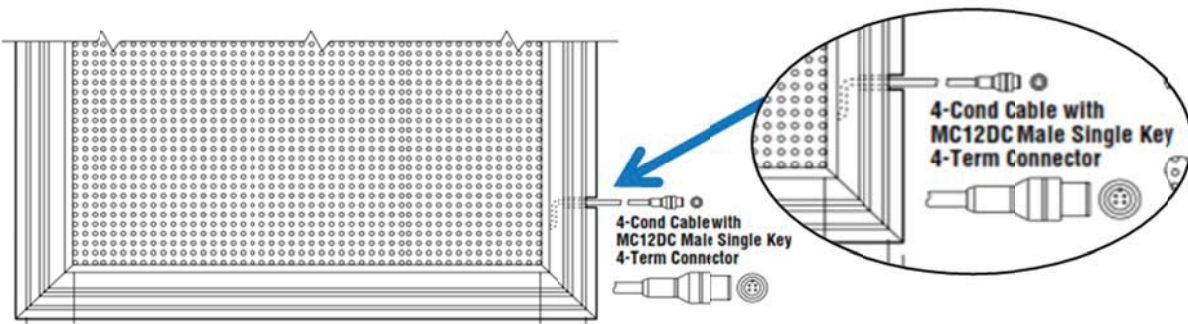

TKA Profile (1-part trim)

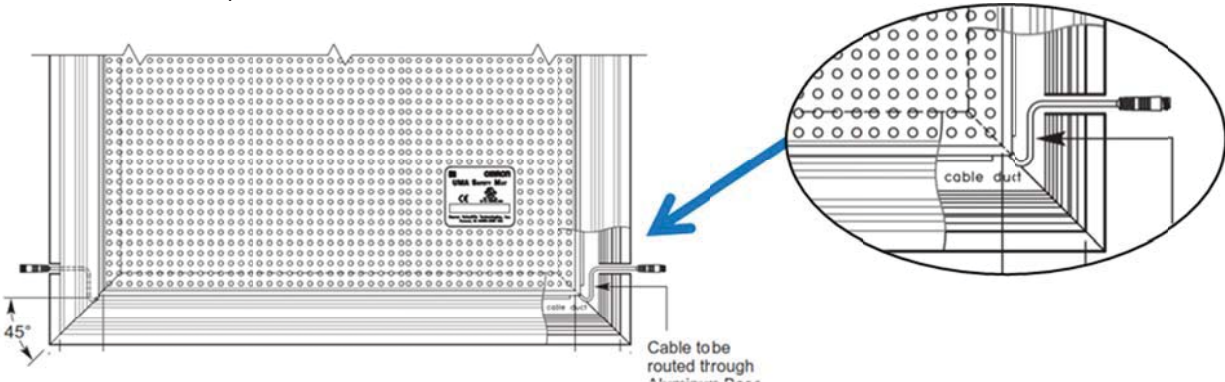

Instructions

- 1) Using a die grinder or other similar method remove ~1/2" of material from this rib at each corner
- 2) Remove all burrs from edges as to not damage the cable

Current UMQ mat with 2-part trim

New UMA mat with 2-part trim

UMA connector can be routed from the corner under the trim to the same exit location
