# FEIG

**Dear Valued Customer**

# Product replacement notice for Feig's ID CPR30-USB, with a compatible reader ID CPR30+

FEIG ELECTRONIC GmbH is committed to continuously improve our RFID products with the goal of offering the market the best possible quality, performance, design, and availability.

Due to the discontinuation of several components used in our HF Reader ID CPR30 we are forced to redesign this device and EOL the current version. We are writing to inform you of the details of the last purchase and shipment below and to assure you that, while the newly designed device (ID CPR30+) will have some additional features, it will be 100% form, fit and function compatible with the current device.

If you are using the "Reader Type" function out of the "Reader Info Command" you will need to update that to allow for the new reader type either via our new SDK or in your firmware settings.

See the enclosed preliminary data sheet.

| Feig Part Number | Device Description | Last acceptance for POs | Last Shipment |
|---|---|---|---|
| 3600.000.01 | **ID CPR30-USB HF Proximity Reader** | December 31, 2021 | March 31, 2022 |

| Feig Part Number | Device Description | First Samples available | Production plan |
|---|---|---|---|
| 6071.000.00 | **ID CPR30+ HF Proximity Reader** | January 2022 | April 2022 |

Please provide your last time purchase orders to us as soon as possible so we can make our last time purchases and get the needed delivery to accommodate your schedule.

If you have any questions or if you would like to discuss this notice, please feel free to call or write to me.

Kind Regards,

Deborah Greenway
