

Date: June 22, 2018

To: Bussmann series 7.2 kV R-Rated medium voltage fuse customers

Subject: End-of-life notice

Dear valued customer:

Effective immediately, specific Bussmann™ series 7.2 kV R-rated fuses have reached their end-of-life. Consequently, their production has been discontinued and they are no longer available. There are no recommended replacements.

There is no last time buy for the catalog numbers listed in this notice.

The specific fuses include sizes 9R and above in all mounting styles (standard, AMPGARD Hookeye, and bolt-on). Additionally, all QuikShip units are covered by notice and are similarly discontinued.

Any inventory you may have is saleable product and should not be returned.

Our 7.2 kV R-Rated fuses designated 2R to 6R in ratings from 70 to 170 A are still available for purchase in all three mounting styles.

Should you need technical assistance identifying a medium voltage fuse for your application, please contact our Application Engineering team at 1-855-278-7626, or email FuseTech@Eaton.com.

If you have any questions regarding this end-of-life notice, please contact your local Bussmann series product sales representative.

Best Regards,

David Rice, P.E.

Product Manager, UL and MV Fuses

Bussmann Division
