

Product Change Notification

TE Connectivity

Product Change Notification: P-21-021249

PCN Date: 28-JUL-21

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
0.64MM FEMALE CONTACT,AU,18-20

Description of Changes
PNC as notify only, no PPAP required TE Global Automotive Division is updating the customer to inform the addition of a stamped "G" added to the sides of the receptacle contact box. This "G" will indicate the contact is gold-plated to help differentiate it from the Tin (Sn) plated version. This results in a minor change to the customer print/drawing. There will be no change to the raw material composition. Electrical, mechanical, and environmental performances will not be affected.

Reason for Changes:
Product improvement. The addition of the G stamp is for cost increase avoidance purposes, replacing the current gold flash stripe indicator which will bring it in line with how other TE terminal product lines and our competitor's products indicate a contact is gold plated.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	30-JUL-2021
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
