Charges Devices and Transfers Data at Lightning-Fast USB 3.1 Gen 2 Speeds The USB-C to USB-A cable supports USB 3.1 Gen 2 data transfer rates up to 10 Gbps, which is double the speed of Gen 1. The Power Delivery cable also provides power output up to 3A (60 watts), which is more than sufficient for charging, syncing and powering compatible devices. The cable is backward compatible with previous USB generations, allowing you to use it with older equipment.
