Telephone: +1 (508) 236-3800
Fax: +1 (508) 236-2531

Dear Valued Customer,

The purpose of this letter is to inform you that Sensata has discontinued the X handle option for the 214 (IAL, IEL, and IUL) and 217 (IAG, IEG, and IUG) breaker families. The designator for this option is an "X" as the fourth digit of the part number, or a "HX" as the fourth and fifth digits of the part number. The 163 obsolete part numbers are listed in the attached Excel document. Effectively immediately, the similar ZX handle is best active alternative option. There will be no additional opportunity to purchase the X handle option.

Sensata appreciates your business and is making this change to allow us to serve our customers better in the future.

Sincerely,

John Kluza
