**IMPORTANT: Update to Notice of Force Majeure/Commercial Impracticability**

Dear Valued Customer:

This letter provides an update to our Notice of Force Majeure/Commercial Impracticability notice dated June 1, 2022, relating to a key supplier suspending operations at one of its Eastern European manufacturing facilities because of government-imposed sanctions.

Having evaluated all available options to minimize potential customer impact, we are providing an update on the supply for any new orders for the products listed in Appendix A. While the force majeure event continues, we believe we have access to enough materials to meet historic customer demand of the products listed in Appendix A. Please continue to place your orders for these 3M products and delivery dates for ordered product will be provided.

The force majeure event continues to cause constraints for those products listed in Appendix B. Appendix B provides information for certain products with an available alternative size of the same adhesive. We continue to work on mitigating any potential supply disruption. Please continue to place your orders for these 3M products and delivery dates for ordered product will be provided when product is available.

As we continue to work with our suppliers, we will issue a further update. We value our relationship with you and appreciate your patience as we continue work through these challenges. If you have any questions regarding this notice, please contact your 3M Sales Representative.

Sincerely,

A handwritten signature in black ink that reads 'Chad Carney'.

Chad Carney  
Vice President  
3M Industrial Adhesives and Tapes Division (IATD) – U.S. and Canada
