01 October 2022

Dear Valued Customer,

**Subject: End of Life Absorber Standard Product Line Eccosorb™ JCS xx (1/3/5/7/9/11)**

Laird Performance Material regrets to inform you of the End Of Life of our Eccosorb™ JCS xx product family due to the short-notice disruption of one of its key ingredients. The affected standard product part numbers are listed in Table 1 below.

The dates for last orders of the products and the final shipment dates are listed in Table 2 below. For customized part numbers, please consult your Laird contact for new part numbers.

However, for customers with framework agreements in place, we will, of course, seek to honour the terms of those contracts even if this date exceeds the Last Dates of Support shown in Table 2.

While our supply chain team is working hard to buy all attainable stock from the market, production is likely stop very soon. We will serve our customers as best as possible upon receipt of the raw material.

We propose you to replace current Eccosorb™ JCS series with a similar new high-frequency absorber called Eccosorb™ JCS-Next. This new generation grade is showing better performance, enabling to reduce thickness while retaining the same performance.

Eccosorb™ JCS-Next is available for sampling and orders.

Table 1. Standard Product Part Numbers Affected by This Announcement

End-of-Sale Product Part Number	Product Description	Replacement Product Part Number (based on thickness)	Replacement Product Description	Replacement Product Part Number (based on attenuation)	Replacement Product Description
85000002	JCS-3, .020x12x12	85005021	JCS-NEXT .020x12x12in	85005011	JCS-NEXT .010x12x12in
