

## Technical Bulletin

### Product Discontinuation – DSTV PC-CO1302, November 2013

#### Product Discontinuation: CabinetMate DSTV-HE (Tension) and HD Inserts

As of December 2013, Weidmüller has completed the discontinuation of CabinetMate DSTV HD series inserts and DSTV HE Tension clamp inserts used to provide terminal block functionality inside the cabinet and a pluggable HE or HD series HDC insert on the outside of the cabinet. In addition to declining demand for this product line, the manufacturing process and use of tin surfacing is technologically outdated. For example, DSTV HD inserts combine the use of gold or silver contacts and tin plated clamps – the combination of which will eventually oxidize, inhibiting current flow. The declining demand for the HD and HE Tension clamp inserts does not justify an insert redesign or factory re-tooling in order to address the oxidization issue: however, because the clamping style is not prone to the oxidation issue and demand is still strong, we are continuing to provide DSTV HE Screw clamp inserts as an alternative.

#### Part Numbers & Stock

Below, you will find a list of all discontinued part numbers and the HE Screw clamp inserts we will continue to provide (marked as “Available”). Weidmüller will continue to provide discontinued product until current stock is depleted.

Item No	Description	Status
1430800000	DSTV COS 32	Available
1430900000	DSTV COS 24	Available

### Actions for Sales and Distribution

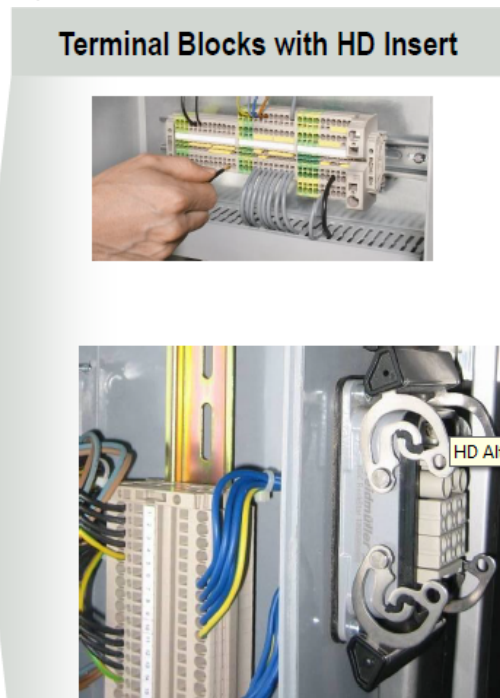

Please be sure to inform your customers using the discontinued inserts as soon as possible and convert them to the HE screw clamp inserts. In the case where the customer cannot easily switch to HE screw clamp inserts, please contact Tech Support to assist with sourcing an alternate option. Most likely, it will involve a through panel HDC base housing (externally) and a terminal solution mounted on din rail (internally) – see “Option 2” in the examples below.

### Examples of Alternate Solutions to DSTV HD:

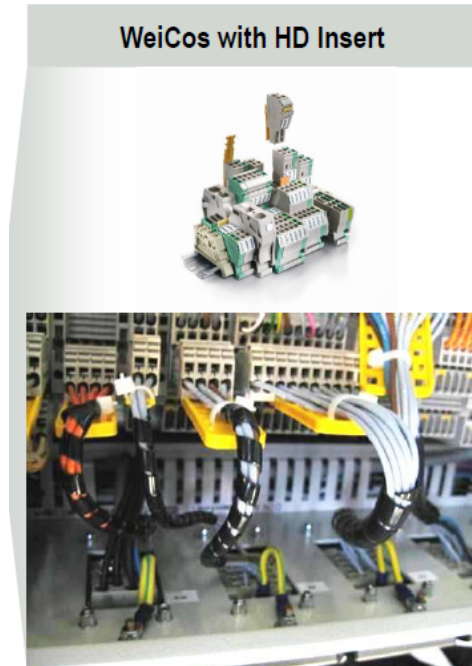

Option 1:

Option 2:

Option 3:

If you have customers using a value-added solution that uses one of the discontinued part numbers listed in this bulletin, be sure you have discussed updated drawings with Engineering. Feel free to call me or tech support with any questions.

Sincerely,

A handwritten signature in black ink that reads "Heidi Kellum".
