

25th March 2013

Industrial AC/DC - End Of Life Announcement

Dear Valued Customers and Sales Channel Partners,

We are writing to you to confirm obsolescence of some legacy products. This transition is immediate and affects the following models:

BLP55-1005
BLP55-1005G
BLP55-1012
BLP55-1012G
BLP55-1024
BLP55-1024G
BLP55-3000G
BLP55-3300G

The decision to terminate these products has been forced on us by a combination of product lifecycle stage, and availability of legacy components.

Power-One does have a direct **replacement model**. The newer model is smaller, higher efficiency, lower cost and meets all of the current Safety and compliance standards. Please ask your local sales support for details and units for evaluation.

A last time buy is available for the BLP55 models and orders must be received by 25 April 2013.

We would like to take this opportunity to thank you for your business in the past and to assure you that everything we do is aimed at becoming your power supply partner of choice in the future.

Regards,

Michael Shaw
Product Marketing Manager – Industrial Products
