

June 2011

EOL#: 11-911

Subject: Product Discontinuation Notice

Dear Customer,

Pulse Electronics is constantly monitoring its product portfolio to keep it as competitive as possible.

Following previous rationalization exercises of our Encapsulated Laminated Transformer product line, Pulse has now taken the decision to totally discontinue this family.

Please find below the list of part numbers that are moving to the “End Of Life” status.

All Pulse Electronics part numbers with the following structure:

020-xxxx-x (or BV020-xxxx-x)
030-xxxx-x (or BV030-xxxx-x)
038-xxxx-x (or BV038-xxxx-x)
042-xxxx-x (or BV042-xxxx-x)
048-xxxx-x (or BV048-xxxx-x)
054-xxxx-x (or BV054-xxxx-x)

In accordance with Pulse Electronics product discontinuation policy, these parts will be end of life on December 31st, 2011 and can not be manufactured after this date.

Please feel free to contact your Pulse sales representative if you have questions, comments, or need additional information.

Very kind regards,

 Pulse Electronics GmbH
