A new hardware version (V2) was released in 2015 that requires a different Windows driver. Click the above Support tab to find old and new drivers and a file with instructions on how to determine which version you need.

USB-A to Serial Adapter Hub (DB9) - Keyspan, High-Speed (M/M), 4-Port

MODEL NUMBER: **USA-49WG**

Connect as many as four devices with a 9-pin serial port, such as modems, cellphones and scanners, to the USB Type-A port on your computer or laptop.

Description

The USA-49WG Keyspan® High-Speed 4-Port USB-to-DB9-Serial Adapter Hub allows you to connect as many as four 9-pin serial devices to a computer or laptop with a USB Type-A port. An easy and inexpensive way to add serial ports to your computer without hassle, the USA-49WG works with any DB9 serial device. Configuring and sharing data among multiple modems, GPS devices, cellphones, hand-held scanners, point-of-sale systems, touch screens, medical and scientific instruments, industrial process control devices and UPS systems is a breeze.

The included 6-ft. (1.83 m) cable supports data transfer speeds up to 460 Kbps—four times as fast as a built-in serial port. Five LEDs display port status at a glance. The USA-49WG requires no external power. Windows line monitor and data trace software included. Works with Windows (XP and later) and Mac OS X (10.6 through 10.13).

Features
