Subject: Change Notification

Dear Valued Customer,

The ability of Henkel Corporation ("Henkel") to procure a desiccant used in the manufacturing of products listed below at Henkel's Rancho Dominguez, California facility has been impacted due to the decision of the supplier of this raw material to cease production.

To ensure continued supply of these products, Henkel has qualified a new source for the supply of this raw material used in the production of the following LOCTITE® Silicones:

Product IDH	Product Description
1399461	LOCTITE ABLESTIK 2113 BIPAX
1401746	LOCTITE ABLESTIK 816H01 BIPAX
1401781	LOCTITE ABLESTIK 816H01 BIPAX
1401775	LOCTITE ECCOBOND F 112 BIPAX
1401362	LOCTITE ECCOBOND F 112 MINIPAX
1401774	LOCTITE ECCOBOND F 113 BIPAX
1401988	LOCTITE ECCOBOND F 113 BIPAX
1401773	LOCTITE ECCOBOND F 113SC BIPAX
1442517	LOCTITE ECCOBOND F 113SC BIPAX
1790511	LOCTITE ECCOBOND F 123 BIPAX
1401770	LOCTITE ECCOBOND F 123HV BIPAX
1401769	LOCTITE ECCOBOND F 131 BIPAX
1401767	LOCTITE ECCOBOND F 253 BIPAX

As part of the qualification of this new raw material provider, we have completed quality control testing to confirm similarities of the raw material provided by the new source versus the raw material provided by existing approved sources for use in the above products. As a result, Henkel does not believe this change in raw material provider will result in any material impact to:

- Manufacturing process
- Performance of the above products in their respective applications
- Performance properties set forth in applicable Loctite Material Specification, Safety Data Sheet, Technical Data Sheet, or Certificate of Analysis
- Shipping and transportation classifications
